

We are looking for a

# Front-end dev

## Our future Front-bro, it isn't anyone

We are expecting you to be our future partner in crime. Animations'specialist, we are speaking about a key position in our company. You will be in the center of the battle and you will have real freedom of movement.

### So what?

You will realize most of the digital projects of the agency

You will be active in briefing sessions and bring your creative and operational input

You will understand the need of the customer by bringing your expertise to deliver a balanced and magnified solution

You will contribute to our evolution and especially to our quest of excellence

You will bring your expertise to the evolution of the company and you will have an impact in its organizational decisions

## Basic

You are a creative (a real one!) You have a real sensibility and your unique personality. You appreciate the view of beautiful things

Innovation is part of you and change does not scare you

You master Canvas

WebGL, you deal with it

You aren't solo player

You know how to communicate and you're ready to identify the needs of our customers to provide an efficient and relevant answer

Awwwards & Behance are in your favorites'bar

You speak French or Dutch or English

You are autonomous and responsible

You are accurate and rigorous

## Our offer

An evolutionary and reevaluable salary

A permanent contract

Drinks moderating moderation

A real flexibility in your work

Not insignificant benefits

Nespresso, what else

## Portfolio mandatory
